Result Announcement Date: 18th July 2026.

Joining date: 01st August 2026

Ophthalmology Fellowship : Eligibility: MS / DO / DNB		
Department	Duration	No. of Seats
Cataract & IOL	3 Years(2 Year Fellowship + 1 Year Consultancy)	4
Cataract & Cornea , Refractive Surgery	3 Years(2 Year Fellowship + 1 Year Consultancy)	4
Cataract & Glaucoma Services	3 Years(2 Year Fellowship + 1 Year Consultancy)	4
Cataract & Paediatric Ophthalmology Strabismus	3 Years(2 Year Fellowship + 1 Year Consultancy)	4
Cataract & Ophthalmic Plastic Surgery, Ocular Oncology	3 Years(2 Year Fellowship + 1 Year Consultancy)	4
Cataract &Uvea, Medical -Retina	3 Years(2 Year Fellowship + 1 Year Consultancy)	2
Vitreo-Retina & UveaServices	2 Year Fellowship	2

❖ **Adult Cataract Training included in all subspecialties excluding Vitreo Retina Services**

CLINICAL EXPOSURE DURING FELLOWSHIP

Cataract & Intra Ocular Lens Implantation: Cataract & IOL Implantation offers comprehensive clinical exposure, focusing on advanced surgical skills, diagnostic expertise, and mastery in cataract management. Fellows gain extensive experience in performing all types of adult cataract surgeries, including complex cases, with hands-on training on high-end phacoemulsification machines and exposure to premium IOLs such as multifocal and toric lenses. The program also includes rotational postings in other subspecialties, ensuring well-rounded training that prepares fellows for excellence in modern ophthalmic care.

Cornea & Refractive Surgery: Cornea & Refractive Surgery offers extensive training in keratoplasty, including lamellar procedures (DALK, DSEK, DMEK), refractive surgeries (LASIK, PRK, SMILE), corneal injury management, amniotic membrane transplantation (AMT), and pterygium surgery (PTR). The program also includes rotational postings in other subspecialties (no hands-on).

Glaucoma Services: Glaucoma Services provides in-depth training in adult glaucoma management, including advanced diagnostic techniques and medical, laser, and surgical interventions. The program also includes rotational postings in other subspecialties (no hands-on). The program also includes training in adult cataract surgery, including phaco and complex cases.

Paediatric Ophthalmology & Strabismus: Pediatric Ophthalmology & Strabismus offers comprehensive training in the management of both adult and pediatric squint, cataract, and pediatric glaucoma. Fellows gain expertise in handling pediatric trauma and refining diagnostic and treatment skills for children's eye conditions. The program also includes rotational postings in other subspecialties (no hands-on). The program also includes training in adult cataract surgery, including phaco and complex cases.

Ophthalmic Plastic Surgery and Ocular Oncology: Ophthalmic Plastic Surgery and Ocular Oncology focuses on lacrimal surgery, lid and orbital procedures, and the management of ocular tumors like retinoblastoma and adult cataracts. The program also includes rotational postings in other subspecialties (no hands-on).

Uvea medical Retina & Cataract Services: Exposure to uveitis and medical retina diseases, including ROP screening, retinal and ROP laser, and intravitreal injections. Training includes extensive exposure in adult cataracts, including complicated cataract.

Vitreo-Retina & Uvea Services: The Vitreo-Retina & Uvea Fellowship focuses exclusively on retinal diseases, offering advanced training in retinal imaging, surgeries, and managing uveitis and neuro-ophthalmological conditions, preparing fellows for excellence in specialized retinal care.

HIGHLIGHTS OF FELLOWSHIP:

1. State of the art equipment & Clinical
2. High Volume Surgical Exposure
3. Simulator Based Training
4. One-to-one Training by senior Faculty members
5. Good Campus life

Sadguru's educational mission focuses on training the next generation of ophthalmologists in a supportive environment, where fellows can learn from expert surgeons and clinicians. Tailored to the candidate's prior training, the program builds confidence to practice independently.

With an outpatient footfall of 2 million patients and approximately 217,000 surgeries annually, including 188,000 cataract surgeries, Sadguru provides extensive hands-on experience.

Over 350 fellows have been trained through specialized programs, ensuring maximum exposure with limited fellowships per specialty. State-of-the-art equipment, wet labs, and modular theaters complement the training. Graduates are equipped to independently perform cataract and specialty surgeries. Sadguru's commitment to equity and excellence ensures high-quality healthcare for all.
