Left Eye: Pre-Op:6/18

Post Op: After one month surgery will be done

Date of Admission: 5/02/2014

Date of Discharge: 7/02/2014

I Suman Pal, 16 years old and studying in 10th standard in Naraini Banda (M.P) my home town. I am suffering from Diabetes for the last 3 years and now suffering from Diabetic Retinopathy for the last one month. I was unable to perform any household work due to my poor vision and lost my confidence to gain good marks in my board exams this year and my future was at stake and I was just clueless about my studies. During this incidence one relative came into our life and suggested to my father about the free eye camps checkup of Sadguru Netra Chikitsalaya and got the information on the same. We got a ray of hope as our financial condition was poor and won't be able to have the treatment in big cities. My Father decided to bring me here in Sadguru Netra Chikitsalaya (SNC) for getting my treatment through Free Outreach Camp organized by SNC in Naraini itself. Due to Diabetic Retinopathy I lost my vision gradually and became the constant victim of blindness. But my father supported me a lot and motivated me to have the surgery on my right eye as advised by doctor. I am Diabetic so I supposed to stay here for long till the sugar level get normalized and was fit for surgery. After being stable for it, I went through the surgery and got satisfactory vision in my right eye and I was ready to have the surgery on my left eye as well for the better field of vision after a month during next follow-up. The staff at SNC and its services was pretty promising and gave me the desired outcome when it comes to my ailment. Now, I have my future plans and will cherish my dreams because my father wants me to become a Doctor and I will fulfill his dream. "Thanks" is just a small word for thanking SNC because it gave me a new life and happiness to see the beautiful world without any trouble.
