# Patient Story of the Quarter

## Baby Dharmendra's Story

**Dharmendra s/o (son of) Puralal  
Patient Index---F1150261**

Puralal remembers that sudden unflinching knot in the gut, the fear in his heart when he realized that his baby boy was not responding to him – that the baby was unable to see. His wife was aghast. The couple was in a state of shock- Baby Dharmendar , whom they lovingly call Duggu, being their first child. For long, they actually tried to please the Gods and 'god men' with various puja-ceremonies as suggested by elderlies of the village.

Then, with little nudging from his wife, Puralal courageously decided to defy the age-old commands –and resolved to take the baby to doctor. Puralal is a farmer with very little land of his own. The family lives in an extremely remote area of Takapur within a district Narsinghpur, Madhya Pradesh. Yet, he took his day off from the field and got to know about Sadguru Netra Chikitsalaya. The very next day, they arrived at Chitrakoot and got registered in the Children Eye Care Center of Sadguru Netra Chikitsalaya.

The doctor confirmed what Puralal and his wife feared – his two year old baby Dharmendra was suffering from bilateral Conjunctival cataract. Applying things like 'surmas' had worsened the infection.

Having the initial investigations done, Dharmendra's left eye was selected first to be operated. The thoughts of his bleak financial situation were constantly disturbing Puralal in back of his mind.

He was joyous to know that baby will be the beneficiary of free services through Sadguru Netra Chikitsalaya partnerships. With Sadguru team, the operation and post-op care went like breeze.

As per the medical advice, Puralal came again to the hospital within the time for getting his baby's right eye operated. Baby was admitted and got successfully operated for his right eye cataract. The couple had happily reported the marked difference in the behavior of the baby with first operation itself.

Earlier, as baby Dharmendra's vision was losing; he was turning into a dully reclusive child. He would get hurt as he was unable to see and that was making him more and more silent. But now, he has already been turning to his playful, very jovial and extremely active self. "This baby is our life. We feel blessed coming to Sadguru Eye Hospital. My baby's eye problem was not solved anywhere but could find solace here. Truly a divine place" says Puralal, wiping his tears of joy.

All the while Duggu looks on with twinkle in his eyes!

# Gift a Vision

A Gift - in the end, it is all about Love.

About compassion that touches the soul.  
Being angel for someone with no expectations.

We get - what we give.

Providing Sight to the Blind is the mission of Sadguru Seva Sangh Trust. The prevalence of blindness is common among rural people; especially women and under-privileged.  
Be the part of this movement with Sadguru- ensuring that no person suffers from avoidable blindness.

Bringing back the lost vision. Just like love that finds a way before it loses its own.  
Help Now!

Gift a Vision

A cataract surgery will be performed on behalf of the donor every year.
